Since 1993,

Isaac V. Norris & Associates, P.C. has served the West Michigan community as a uniquely talented general practice architectural design firm. We have successfully completed a diverse range of projects varying in size and complexity.

As President/Project Architect, Isaac V. Norris has completed a variety of projects though his interpretation of the “Soul of Architecture”. This philosophy rests upon the architect’s ability to:

- Embrace the client’s basic needs.
- Plan and design within the parameters of time, cost, and quality.
- Exceed the aesthetic expectations of the design.
